We are doing our best to process your refunds as quickly and efficiently as possible. As you can imagine this requires a lot of work that is amplified with everyone working remotely, increased demand on the postal services and reduced hours at banks.

Please feel free to reach out to us at any point, but keep in mind that the refund process will take a few weeks to work through our whole list.

The OSGA would like to sincerely thank everyone for their understanding and patience during these difficult times.
